

## Sequence of Progression Stage 1 Overview

This overview shows the sequence of progression of GPCs, tricky words and key skills that we teach term-by-term. The progression has been organised so that children are taught from the simple to more complex GPCs in a clearly defined, incremental sequence. This sequence begins by introducing a defined group of GPCs that enable children to read and spell many words early on. All the graphemes taught are practised in words, phrases, sentences and in fully decodable books matched to the progression. The programme constantly reviews and revises previous learning through its daily and weekly sessions and assessment points are clearly identified and key to the programme. Children who are identified as at risk of falling behind their peers should be given additional practice immediately through catch-up sessions.
